NAME

ADDRESS

CITY, STATE, ZIP CODE

Operation ID recommends that you use your 2-letter State Abbreviation followed by 'DL' and your Driver's License Number for easiest identification of your property.- Example: ORD1234567. Another method is to use your 9-digit ZIP+4 code followed by the last 4 digits of your street address number. Example: 97381-1645-0417. Either of these can be easily identified by Law Enforcement Personnel.

Adding your Name to the Stencil Information would also aid identification & return of property.  
**To avoid Identity Theft Do Not Use your Social Security Number for property identification!**
